## MERN Stack Web Developer

### SUMMARY

I am a passionate Full-Stack Developer with expertise in the MERN stack (MongoDB, Express.js, React, Node.js) and TypeScript, dedicated to creating responsive and scalable web applications. I have strong skills in end-to-end development using modern tools like HTML, CSS, JavaScript, React, and Express, with a focus on clean code and seamless user experiences. Currently, I am expanding my skills into Web3 technologies, delving into decentralized applications (dApps), blockchain fundamentals, and smart contract development. Driven by innovation and a desire for hands-on challenges, I thrive in dynamic environments where modern solutions meet real-world impact. I am eager to contribute my technical background and growing Web3 knowledge to forward-thinking projects.
